

Muffalo Potato

Ages 5+

Muffalo Potato is a web series that teaches you how to draw using only numbers and letters. It's very easy to follow along and there's a variety of ocean creatures that kids can learn to draw! Check out the YouTube channel here:

<https://www.youtube.com/user/muffalopotato/>

Tutorials for sharks, walrus, fish, turtles, and even Nemo and Dory can be found on the channel. Have your kids follow along with John on the videos to learn how to draw some ocean creatures! Once finished have them colour their masterpiece and add the background. For added educational content, discuss which ecosystem each of the animals live in and have your kids create that ecosystem in the background. For example, once their walrus is finished talk about how walrus live in the arctic and have them add ice flows and other arctic animals to their drawings.

If you want to know more about John and Muffalo, visit <http://muffalopotato.com/> where you can see other episodes, resources, and a gallery of kids drawings.

Materials Needed:

- Paper & Drawing utensils
- Internet
