

## DIRECT ACTION YOUTH WEEKLY UPDATE

---

JANUARY 18, 2021

Even here in Vancouver it's too early for flowers, but the sun is shining today for the first time in a long time and it feels like spring may not be so far away after all. It's strange to associate hope with the weather, but that's undoubtedly what I'm doing even as I stare at the frost covering a corner of my roof that I know sunlight will never touch directly. Still, it will thaw eventually. From my bedroom office, I can only imagine how that light will feel but hopefully it will come close enough to touch. I'm basically a cat searching for a warm spot to recharge.

## SPINY SAYS...

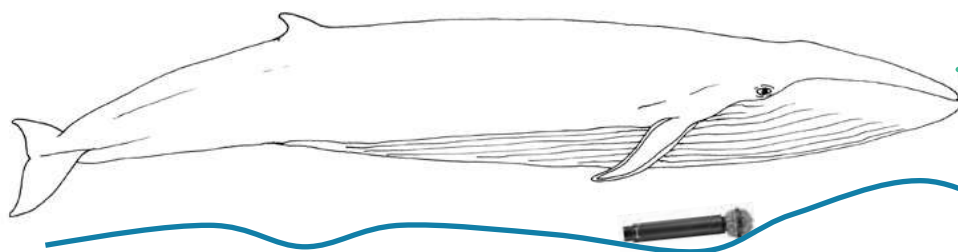

Lessons from the Lumpsucker.

The first flowering plants didn't exist until about 140 Million years ago. Imagine a world without flowers – I picture a lot of green and brown and grey. And the smells! It's not official, but today is now "Appreciate a Flower Day". What's your favourite flower, and why?

## WEEKLY FUN FACT

At 188 decibels, the call of the Blue Whale is the loudest sound made by any animal on the planet.

## QUOTE OF THE WEEK

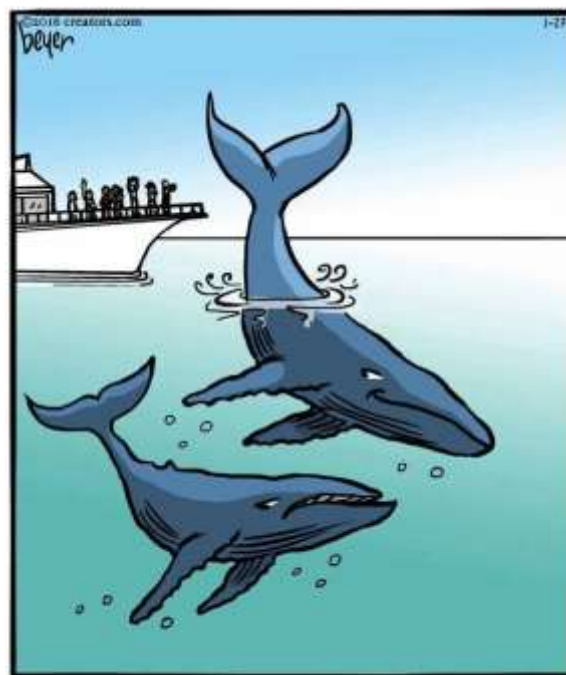

maggie and milly and molly and may  
went down to the beach (to play one day)  
and maggie discovered a shell that sang  
so sweetly she couldn't remember her troubles, and  
milly befriended a stranded star  
whose rays five languid fingers were;  
and molly was chased by a horrible thing  
which raced sideways while blowing bubbles: and  
may came home with a smooth round stone  
as small as a world and as large as alone.  
For whatever we lose (like a you or a me)  
it's always ourselves we find in the sea.

## LAUGH OF THE WEEK

*"I don't think they realize you're mooning them."*
