

# Virtual Behaviour Policy

Teacher and/or parent leaders are responsible for the behavior of all participants in their group. Please talk with participants about how they should behave during their virtual program.

## Students are expected to:

- Demonstrate respect for all program participants and program educators
- Respect the personal information and privacy of others
- Respect the differences in people, their ideas and opinions
- Be active and engaged participants in the program
- Only use appropriate language, both verbally and in any chat features
- Only use the chat feature for relevant program discussion

Participants that do not meet the above expectations may be asked to leave the virtual program. If necessary, participants may be manually booted from the program. No refunds will be given.

The Program Manager will address any issues that arise during a program. In order for your group to participate in your virtual program, the group leader must sign this Virtual Behaviour Contract and agree to its terms.

**Thank you!**
