*we will have two charter flights to Sandspit. 1 earlier and 1 later

Your facilitation team has already arranged the following:

Accommodation: Hiellen Longhouse Village Local Transport: 2 24-passenger buses from Eagle Transit with drivers and an SUV Food: Facilitation team is arranging with local caterers.

Considerations and Recommendations to keep in mind:

- Our service project does not need to be 1 big project with all 40 youth, we can have several smaller projects in smaller groups. However if you work to plan one project, you may still be able to participate on Haida Gwaii in one of the others.
- We will be hosting an open house in Old Massett/Masset AND Skidegate/Queen Charlotte on our first full day and last day.
- We will be staying at Hiellen Longhouse Village 30 min outside of Old Massett/Masset and 1.5hrs outside Skidegate/Queen Charlotte. We DO encourage you to plan service projects for both communities though.
- Boats can be expensive so the less boat travel needed the better. However, some may be possible so do not let this restrict your ideas yet.
- We are looking into whether or not diving projects are a possibility.
- Spend some time looking at a map of Haida Gwaii and the roads to ensure we can drive to proposed sites.
- Be respectful of others time and capacity. We want to connect with the local community and build relationships; we do not want to burden the community with our needs.
- Listen to the community members/organizations for what would be a meaningful Ocean Bridge contribution. Prepare to put your personal interests aside and to compromise with your peers.
- If you have a skill set or knowledge area:
- feel free to propose hosting a session for your peers
- share insights/thoughts/suggestions/ideas with your peers in the discussion board

You will have:

- \$25,000 budget for open houses & service projects in addition to accommodation, travel, local transport and food.
- 10 days and 40 of you
- Support from your facilitation team throughout the planning process
- Limited “free time” during the 10 days.

You will need:

- Final approval from the facilitation team on the chosen projects.
- Final approval on the proposed budget.
- A rain jacket..... Additional packing list coming soon.
