I noticed a lot of participants are interested in organizing solo-cleanups as part of your ocean service hours. This quick webinar is about how to organize your own solo cleanup, led by myself and Michelle from Youth 2 Sea.

We will be going over:

- How to register your solo clean up
- How to fill out the cleanup data sheet and how to submit and upload the data
- How CoVid affects cleanups
- What the data is for and the bigger picture of your impact
